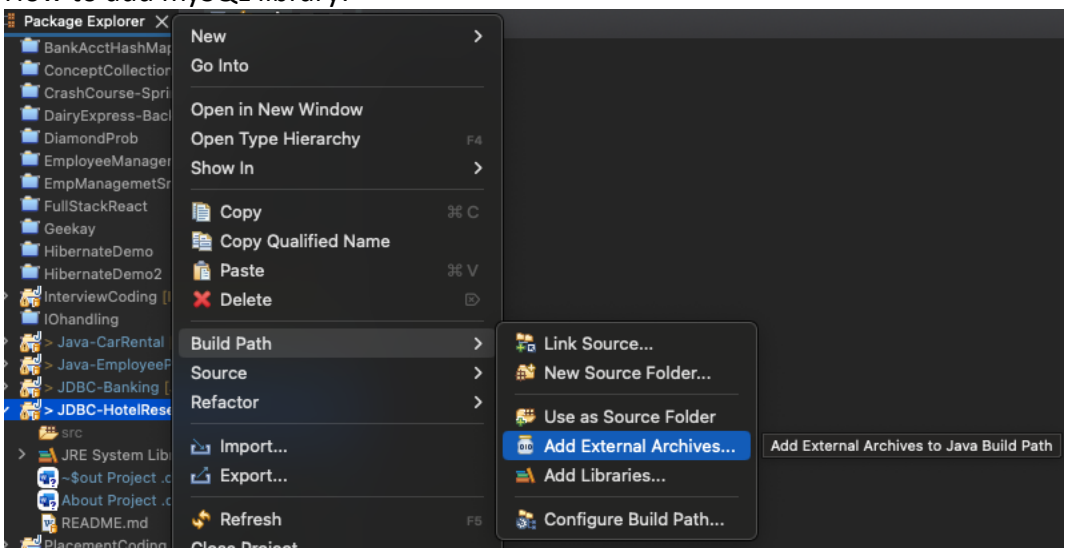
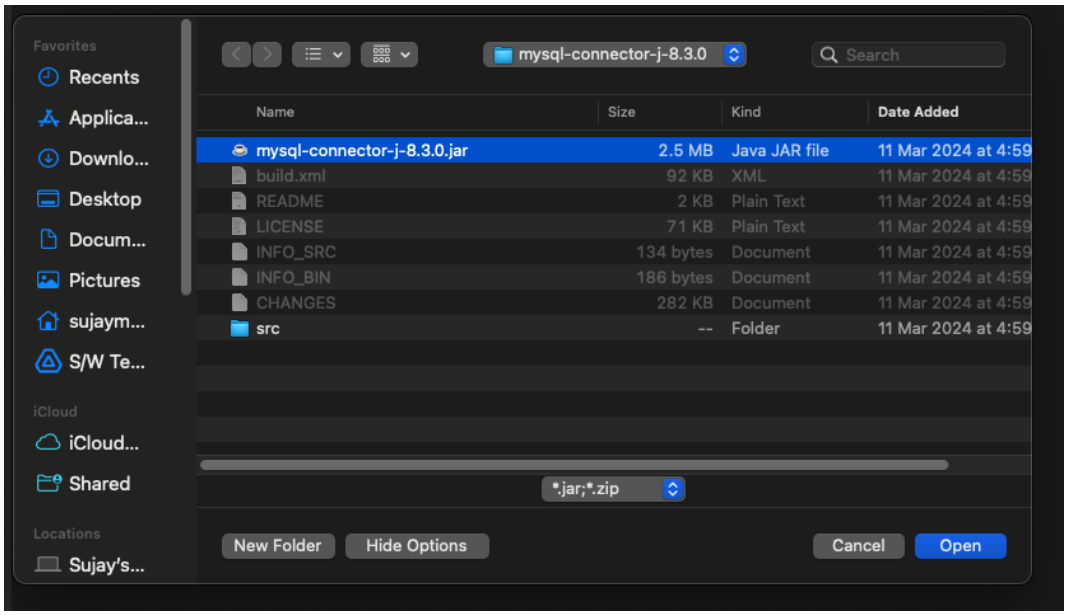
How to add mySQL library:





Database Schema:

```
mysql> desc reservations;
+------------------+--------------+------+-----+-------------------+-------------------+
| Field            | Type         | Null | Key | Default           | Extra             |
+------------------+--------------+------+-----+-------------------+-------------------+
| reservationId    | int          | NO   | PRI | NULL              | auto_increment    |
| guest_Name       | varchar(255) | YES  |     | NULL              |                   |
| room_id          | int          | YES  |     | NULL              |                   |
| contact_no       | varchar(20)  | YES  |     | NULL              |                   |
| reservation_date | timestamp    | YES  |     | CURRENT_TIMESTAMP | DEFAULT_GENERATED |
+------------------+--------------+------+-----+-------------------+-------------------+
```
